**Subject:** List of Old man Characteristics

Here is a list of Old man characteristics I have compiled. They are broken down into three categories. You may recall from some of my other writings that the Antichrist has three personalities. I am judge or on the negative side, victim, I am God, and I am Savior. If you know of any other characteristics of the old man nature please let me know. The list is long right now, however, I will summarize many of them into one statement. Thank you for you input. In Him, Dwight

### **VICTIM OR JUDGMENT NATURE OF MY OLD MAN**

No matter what I do and how good I am God is going to punish me or kill me for being bad

No body loves me or cares for me, my children or my spouse.

I don't deserve God's love. I am not worthy of His Love I am afraid of what God's love really is. It may be bad and condemning of me

I have never experienced God's love only his judgment and punishment My bad experiences with people (Esp. Mother and Father) keep me from trusting God.

If I seek God's love and He rejects me, what would I do, then?

I blame God for the bad things that happen to me. It must have been God's will

God is far off, He will never be close to me God does not love me, He feels pity for me.

I am afraid that if I give my life to God, I will lose my identity as a person

No matter how much I try, I always end up losing.

I could never apply myself enough to accomplish something.

I am always daydreaming about how I could succeed, but I never do anything about it.

No matter how hard I try, no one wants a relationship with me I can never get well. I am sick all the time.

Maybe the more medicine I take the better I will be I go to every doctor I can find so that I can keep from dying.
